

## Jean's Flower Link Necklace

If you have not made loops before you will find the 'Loops and Linking' & 'Loops - A Professional Touch' downloads on the Techniques tab useful for making the dangles on this necklace

First prepare the headpin danglers

Cut two pins down to 2.5cm, thread on 1A and loop at the end.

Cut two pins down to 2cm, thread on 1A and loop at the end.

Cut the remaining pin down to 3cm, thread on 1A and loop at the end

Onto an eyepin thread 1B, 1A and 1B. Trim and make a loop in the SAME PLANE as the loop at the other end of the pin. Make three more pins the same. Call these links 'Z'.

Lay out the central sequence for the necklace with links and jump rings as follows:-  
1C, 1Z, 1E, 1Z, 1D, 1H, 1F, 1H, 1D, 1Z, 1E, 1Z, 1C.

Connect the sequence together by opening the loops on the Z links and the H jump rings at the centre front - MAKE SURE that you attach the flower filigrees through the correct petals to ensure they hang properly on the finished necklace - check the picture above to make sure.

Cut the chain in half and attach one piece to each end of the sequence just completed with a H jump ring.

Attach the pins completed in step one to the flower filigrees as follows:- the longest pin sits at centre front, the shortest to either side of this one, the medium length pins are attached to the flatter flower filigrees on the sides of the centre front.

To complete the necklace check the length, trim the chain if necessary and when you are happy attach the fastener to the ends of the chain with the 4mm jump rings.

### Ingredients

- 5 x FN016 headpins
- 9 x FGR401 crystal rondelles (A)
- 8 x MB060 6mm sparkle beads (B)
- 2 x MB668 14mm solid round links (C)
- 2 x MB670 15x10mm solid oval links (D)
- 2 x MB641 22mm flower filigrees (E)
- 1 x MB631 flower filigree for diamante (F)
- 2 x FN141 4mm jump rings (G)
- 4 x FN067 oval jump rings (H)
- 4 x FN014 silver eyepins
- 25cm FN131 trace chain
- 1 x FN023 silver lobster fastener
